

At page 17, line 18, the word --- an --- replaces the word "al" of the original specification;

At page 17, line 30, the phrase --- is rejected --- replaces the phrase "if rejected" of the original specification;

At page 18, line 7, the word --- the --- replaces the word "eh" of the original specification;

At page 24, line 22, the word with --- phosphatidylethanolamine --- replaces the word "phosphatidylethanolmine" of the original specification;

Please add as a separate page, the attached Abstract.

In the Claims:

Please replace claims 1, 2 and 14 by the following amended claims:

1. A method for enhancing the growth of preterm infants comprising administering to said infants a growth enhancing amount of DHA and ARA wherein the DHA and ARA are added into nutritional products or nutritional supplements for preterm infants.

2. The method of Claim 1 wherein DHA and ARA are supplemented into preterm infant formula.

14. An infant formula for preterm infants, the improvement comprising the inclusion in said preterm infant formula of a growth enhancing amount of DHA and ARA.

REMARKS

The specification has been replaced by the substitute specification filed herewith to meet the Examiner's requirement that a new application be filed, with lines double spaced on good quality paper. The Examiner objected to the specification because the
